Schizachyrium scoparium 'Little Red Fox' PPAF

Our Breeding Philosophy

Our plants are bred and selected in the tough conditions of the Midwest with hot humid summers and cold wet winters. We strive to breed plants not as a means, but with an end in mind.

Our goals are simple- improved, durable, ornamental garden plants for our own climate and the rest of the world! Our plants are bred to stand the test of time, if they don't survive or thrive in the garden why bother.

On the cover: *Schizachyrium scoparium* 'Little Red Fox' PPAF

January 2023

2023 promises to be an exciting year as Intrinsic Perennial Garden's (IPG) own introduction, *Rudbeckia* x 'American Gold Rush' takes center stage as the 2023 Perennial Plant of the Year. This distinction paves the way for continued innovations in breeding for our company as we continue to supply the local trade with exciting new and durable plants that stand the test of time. A sampling of new items includes *Aster* x 'Thunderdome' PPAF which brings the color of Purple Dome to the habit of the fragrant aster oblongifolius with pleasing purple flowers on 24 x 30" mounded plants with scent enough to repel deer. *Geranium maculatum* 'Huggy Bear' PPAF has warm chocolate red foliage from spring until fall. Compared to Espresso, the leaves are larger to 5" and cleaner of foliage disease. Clear pink flowers above the foliage create a nice combination.

IPG's fourth *Rudbeckia* introduction compliments the others with an entirely different habit. 'Green-Eyed Lady' has an upright habit to 30" and the cones emerge green turning to yellow, eventually turning to brown. *Sanguisorba* x 'Plum Drops' PPAF is a perfect intermediate height between the 2- foot tall and the 5- foot tall parents. Beautiful deep green pinnate foliage holds thin stems topped with hundreds of plum-colored fingered flowers in late summer. As a 3-4' plant, it's a natural companion of ornamental grasses including our two new little bluestem introductions. *Schizachyrium scoparium* 'Little Red Fox' PPAF which has a low basal foliage skirt while the thin wiry stems pierce through to a 30" height. A range of coloration maintains interest from spring through to winter. Emerging green and gray foliage it evolves into red and silver as the early blooms of July shimmer into fall color in August, culminating in winter interest all season long.

Almost every visit to Intrinsic Perennial Gardens in October is marked by breathtaking witness to the migrating sandhill cranes above. As tribute, our own new little bluestem *Schizachyrium scoparium* 'Sandhill' PPAF is on the tall side at 4' plus. The powder blue foliage is wider than typical and reminiscent of a big bluestem at times. Our ornamental grass breeding continues to yield good results and includes two more exclusives; one with Must Have Perennials for *Pennisetum a.* 'Water to Wine' PPAF with near black flowers, and one with Proven Winners for *Pennisetum a.* 'Lemon Squeeze' PP#34,634 which has wide gold foliage and light colored flowers. To learn more about grasses we invite you to attend IPG's 8th Ornamental Grass Day on Friday, September 15th, 2023.

Veronica x 'Seaside' PPAF is another Garden Choice™ exclusive item, it has bright green foliage on plants 24" tall. Large periwinkle flowers bloom for a long period in early to mid- summer.

New unrooted cutting items are available this year from Quality Cuttings Team, including *Salvia nemorosa* 'Sixteen Candles', *Sedum album* 'Nerds' and 'Lime Joy', and *Solidago* 'Sugar Kisses' bringing the total to 21 varieties available as unrooted cuttings. This includes strong availability of *Stachys* 'Summer Crush' and 'Summer Romance' *Leucanthemum superbum* 'Flower Power' PPAF and *Veronica* 'Seaside' for Garden Choice™ licensees and *Delosperma* 'Mountain Dew' and 'Orange Crush' available from Darwin Perennials.

We had a great visit to Microplant in the fall and are pleased to report new tissue culture items include both little bluestems, *Schizachyrium scoparium* 'Little Red Fox' PPAF and 'Sandhill' PPAF and *Rudbeckia* x 'Green Eyed Lady' PPAF. All Plant via Green Trade is offering tissue culture of *Rudbeckia* x 'Glitters Like Gold' and *Sanguisorba* 'Plum Drops' PPAF.

Thank you to all those propagating and selling IPG genetics. May our co-operations continue to grow!

Brent Horvath

GOT SEDUMS?

Brent Horvath's first book, *The Plant Lover's Guide to Sedums*, is available from Timber Press. It includes everything you need to know about these beautiful gems. Plant profiles highlight 150 of the best varieties to grow, with information on zones, plant size, soil and light needs, origin, and how they are used in the landscape. Additional information includes designing with sedums, growing and propagating them, where to buy them, and where to see them in public gardens.

Allium schoenoprasum Dwarf Pink Chive

'Rising Star' — Extra dwarf pink chives reaching only 10-12" tall and wide, bloom in May. Fine grey, green, grassy foliage looks nice all season long. Easy to grow. Plants prefer full sun and average to well drained soil.

70 plug 1.50
4 1/2" 4.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2010			plugs	Blooming Nursery

Allium x Ornamental Onion

'Big Beauty' PP#34,306 — Extra wide grey-green foliage stands out early in the season on this robust growing allium. In July silvered pink buds open to soft pink 2.5" flower balls. Similar in color to 'Summer Beauty' this plant grows a bit taller to around 24" plus. Full sun, most any soil but wet.

Deep 50 plug 2.50
1 Gal. 7.75

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2021	\$0.20	Patented	custom	Blooming Nursery, Midwest Groundcovers, Pioneer Gardens, Twixwood

'Chivette' PP#30,151 — A mostly sterile chive with edible kelly green foliage all season long. Initially upright but then more relaxed reaching 12-15" + long. This vigorous plant is easy to grow. Lavender purple flowers with a purple stripe down the middle of the petal are also edible and held on 12" + stems. Beginning as round buds the flower open to 1" wide. Full sun preferred. Average to dry soil.

70 plug 1.75
1 Gal. 6.75

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2017	\$0.15	Patented	plugs, bareroot	Pioneer Gardens, Garden Choice

'New Moon' PPAF — This new ornamental onion is heavy blooming with lavender colored flowers on uniform plants blooming mid to late summer on 12 to 15 inch stems. Full sun, well drained to dry soil.

1 Gal. 6.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG

Amsonia *tabernaemontana* **Bluestar**

'Fontana' – This red stem selection has slightly darker blue flower clusters at the end of May into June on 36" + plants. In August the red seedheads are showy too. Zone 4-9. Full sun to light shade. Well drained to dry soil.

1 Gal. 6.50

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2015			custom	

'Bases Loaded' – Intermediate, halfway type foliage, emerges dark green. These hybrid plants are heavy blooming. The light blue flower clusters are larger too and begin to open at the end of May on 18-24" stems. These plants have a reserved growth spurt to 30 inches plus after the flowers fade keeping the plant wider than tall. Full sun, average soil

Amsonia x **Baseball™ Bluestar**

'Seventh Inning Stretch' – Initially glossy foliage emerges green but smaller than a typical illustris. The habit on this hybrid is upright but more reserved and is bushier. Light blue flower clusters bloom at the top of the thin stems in late May, early June eventually reaching 3' . Full sun to light shade.

***Pennisetum alopecuroides* Red Head Fountain Grass**

'Red Head' — An early form of red flowering *Pennisetum*. I selected this one in 1998 from among *Pennisetum* National 'Arboretum.' 'Red Head' shows its red inflorescence the beginning of August, one month earlier than most. It looked stunning against the Feather Reed Grass in the field beds at the nursery. Nice with other red grasses, variegated *Miscanthus* and Joe Pye Weed. Full sun, well drained to moist soil. It should be deadheaded in October to prevent reseeding. Awarded in 2010 at the ISU Conference in Europe.
